

## KINGSTON

### DIMM DDR4 8GB 2400 ECC KTD-PE424E/8G

Dostupnost: NEMA NA  
STANJU

MP cena: 8.790,00 din

Šifra proizovda: MEM01264

**8.790,00** din

Ušteda: 0,00 din

## Opis

## Specifikacija

### Karakteristike

|                     |                                                                                                        |
|---------------------|--------------------------------------------------------------------------------------------------------|
| Broj pinova         | 288                                                                                                    |
| Kapacitet           | 8GB                                                                                                    |
| Radni takt memorije | 2.400MHz                                                                                               |
| Slot                | DIMM                                                                                                   |
| Tip memorije        | DDR4                                                                                                   |
| Upotreba            | Dell PowerEdge R230, Dell PowerEdge R330, Dell PowerEdge T130, Dell PowerEdge T30, Dell PowerEdge T330 |
| Voltaža             | 1.2V                                                                                                   |

### Reklamacioni period

|                     |            |
|---------------------|------------|
| Reklamacioni period | 120 meseci |
|---------------------|------------|
